

Moodle 2.8

Course Copy Using Backup & Restore

Backup Process

1. Login to Moodle: <http://moodle.cpcc.edu>
2. Go to the **source course (the course you wish to copy from)**
3. Create a **BACKUP** of the source course. In your **source course** (the course you wish to copy from), click on **Backup** in the **Administration** block
Here is the procedure: **Administration block > Course administration > Backup**

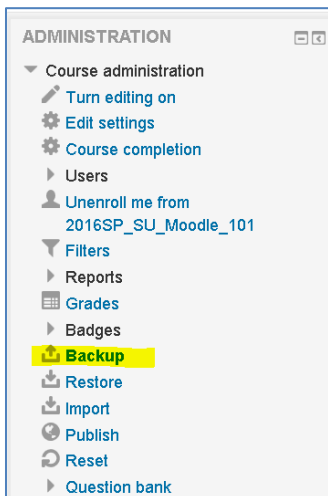

Figure 1 SOURCE COURSE - Administration block, Course Administration, Backup

4. You will be prompted to the process of copying the shell (5 steps)

Figure 2 SOURCE COURSE - Process to copy shell: showing Initial Settings (step 1 of 5)

5. From the **Initial Settings**, accept the defaults.
Leave un-selected: "IIMS Common Cartridge 1.1, Include enrolled users, anonymize information, include grade history".
6. Go to the bottom of the page and click on **Jump to final step**

Figure 3 SOURCE COURSE - Jump to final step

- Wait until backup is created successfully complete, and once you receive confirmation click **Continue**

Figure 4 SOURCE COURSE - Process backup successful.; Click continue

- Backup courses will be stored in the **User Private Backup AREA** under **Restore** in the **Administration** block.

Figure 5 SOURCE COURSE - User private backup area

Restore Process

- Go to the **destination course (the course you wish to copy into*)**
 * The destination course is usually your semester shell. To see your semester shell, [Moodleize](#) your course first.
- In your destination course (**the course you wish to copy into**), i.e. 2016 FA Moodle, obtain the Course Information: **Course full name** and **Course short name**.
 * *This step is very important. We will need this information later. It is better to copy this information in a separate file. You will paste it later.*
- Click on **Edit Settings** in the **Administration** block.

Figure 6 DESTINATION COURSE Administration Block, Edit Settings

Figure 7 DESTINATION COURSE - Obtain EXACT **Course Full Name** and **Course short Name**

You may want to copy/paste this information in a document. It will be used in the restore process later on.

- In your destination course (**the course you wish to copy into**), click on **Restore** in the **Administration** block.

Here is the procedure: **Administration block > Course Administration > Restore**

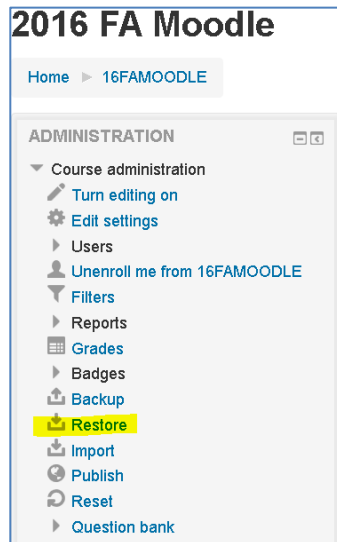

Figure 8 DESTINATION COURSE: Administration block, Course Administration, Restore

- Choose the course you previously backed up:

- by clicking on the **Restore** link from the User private back up area, as shown in figure 9
